The Legislative Audit Committee
of the Montana State Legislature:

Enclosed is the report on the audit of the Legislative Council for
the two fiscal years ended June 30, 1995.

The audit was conducted by James J. Wosepka, CPA, under a contract
between the firm and our office. The comments and recommendations
contained in this report represent the views of the firm and not
necessarily the Legislative Auditor.

The agency's written response to the report is included in the back
of the audit report.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Scott A. Seacat", with a large, stylized flourish extending to the right.

INTRODUCTION

We performed a financial-compliance audit of the Legislative Council for the two fiscal years ended June 30, 1995. The objectives of the audit were to: (1) determine if the financial schedules present fairly the Council's results of operations in accordance with the State's accounting policies for the two fiscal years ended June 30, 1995; (2) determine if the Council complied with applicable laws and regulations; and (3) make recommendations for improvement in the management and internal controls of the Council.

We thank the staff of the Legislative Council for their cooperation and assistance during our audit.

BACKGROUND

Title 5, Chapter 5 and 11, MCA, established the Legislative Council as an eight-member council. The function of the Council is to provide legal services, bill drafting and research to the Legislative and interim Committees. The Legislative Council also enrolls, prints, and mails all bills and prepares House and Senate Journals and Session Laws for publication. The staff also provides for the recodification and indexing of Montana Statutes.

The Legislative Council consists of:

- Legislative Research
- Legislative Services
- Management
- Legal Services
- Interim Studies and Conferences
- Montana Codes Annotated

INTERNAL CONTROL

We have examined the financial schedules of the Legislative Council for the two fiscal years ended June 30, 1995. We issued our opinion dated September 22, 1995 on these schedules. As part of our examination, we made a study and evaluation of the Council's control system. Our study evaluated the system as required by government auditing standards for financial compliance audits. We classified the controls in the following categories:

1. Expenditures/liabilities;
2. Property, plant, and equipment;
3. Payroll; and
4. Revenue/receivables.

Our study included the control categories listed above. We applied alternative audit tests to property, plant, and equipment as we determined it was more efficient to expand substantive testing for this area. Through our study, we determined the nature, timing, and extent of our auditing procedures. We did not evaluate the control system to the extent necessary to give an opinion on either individual segments or system as a whole.

The management of the Legislative Council is responsible for establishing and maintaining a system of accounting control. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related

cost of control procedures. The objectives of a system are to provide management with reasonable assurance that: (1) assets are safeguarded against loss from unauthorized use or disposition; (2) transactions are executed in accordance with management's authorization; and (3) transactions are recorded properly to permit the preparation of financial schedules in accordance with state accounting policies. Inherent limitations in any system of controls may cause errors or irregularities to remain undetected. The current system evaluation should not be used to project to future periods since the procedures may become inadequate or compliance with them may deteriorate.

The limited purpose of our study described in the first paragraph would not necessarily disclose all material weaknesses in the system. Accordingly, we do not express an opinion on the system of controls used by the Legislative Council.

A material weakness is a condition in which the design or operation of one or more of the internal control structure elements does not reduce to a relatively low level the risk that errors and irregularities in amounts that would be material in relation to the financial statements being examined may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control structure and its operations that we consider to be material weaknesses as defined above.

This report is intended solely for the use of management and the Legislature and should not be used for any other purpose. This restriction as to use is not intended to limit the distribution of the document which, upon presentation to the Legislative Audit Committee, is a matter of public record

PRIOR AUDIT RECOMMENDATIONS

The Legislative Council was last audited for the fiscal years ending June 30, 1992 and 1993, under contract through the office of the Legislative Auditor. No audit recommendations were made.

CURRENT AUDIT RECOMMENDATIONS

The Property Accountability Management System (PAMS) was not properly updated. Information was not entered or deleted from the system.

RECOMMENDATION

We recommend staff be instructed on how the input and deletion forms are to be completed, and that the PAMS be updated on a timely basis.

STATE COMPLIANCE

We reviewed compliance with state laws that could have a material impact on the financial schedules of the Council. In our opinion, the Council complied with the state laws and regulations tested. Nothing came to our attention that caused us to believe untested compliance issues were not in accordance with applicable laws and regulations.

INDEPENDENT AUDITORS' REPORT

The Legislative Audit Committee
Of the Montana State Legislature:

We have audited the financial schedules of the Office of the Legislative Council for each of the two fiscal years ended June 30, 1994 and 1995, as listed in the table of contents. These financial schedules are the responsibility of the Office's management. Our responsibility is to express an opinion on these financial schedules based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial schedules are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial schedules. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial schedule presentation. We believe that our audit provides a reasonable basis for our opinion.

As described in Note 1 to the financial schedules, the Office's financial schedules are prepared in accordance with state accounting policy and are not intended to be a presentation in conformity with generally accepted accounting principles.

In our opinion, the financial schedules referred to in paragraph one present fairly, in all material respects, the results of operations and changes in fund balances of the Office of the Legislative Council for each of the two fiscal years ended June 30, 1994 and 1995, in conformity with the basis of accounting described in Note 1.

LEGISLATIVE COUNCIL

NOTES TO THE FINANCIAL SCHEDULES
JUNE 30, 1994 AND 1995

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The Legislative Council utilizes the modified accrual basis of accounting which is described in the Montana Operations Manual, such basis differs from generally accepted accounting principles in the following material respects:

under the modified accrual basis of accounting, a valid obligation exists when the related liability is incurred except for the following items which are also considered valid obligations under state accounting policy;

- If the appropriation provided funds to complete a given project, the entire amount of a service contract may be accrued even though the services are rendered in fiscal years subsequent to the fiscal year in which the expenditure is accrued.
- The anticipated cost of equipment is expensed in the fiscal year in which budgeted.
- Goods ordered, but not received as of the fiscal year-end, may be accrued if the purchase order was issued in the fiscal year in which the anticipated expenditure is to be accrued.
- Obligations for employees' vested leave and sick leave are recorded as expenditures when paid.

Basis of Presentation

The financial schedules were prepared from Statewide Budgeting and Accounting System (SBAS) without adjustments. Accounts are organized on the basis of funds according to State law. The following fund types are used by the office:

General - accounts for all financial resources except those required to be accounted for in another fund.

Special Revenue - accounts for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes. Legislative appropriation is required to spend from this fund.

LEGISLATIVE COUNCIL

NOTES TO THE FINANCIAL SCHEDULES (CONT.) JUNE 30, 1994 AND 1995

Vacation and Sick Leave

Employees are paid for 100 percent of unused vacation and 25 percent of unused sick leave credits upon termination. Accumulated unpaid liabilities for vacation and sick leave are not reflected in the financial schedules of the Legislative Council. Expenditures for termination pay currently are absorbed in the annual operational costs of the Council. At June 30, 1994 and 1995, the Council had liabilities for compensated absences of \$ 169,767 and \$ 186,575, respectively.

2. PENSION PLAN

Employees are covered by Montana Public Employees' Retirement System (PERS). The Council's contributions to the plan are shown below:

Fiscal Year	Fiscal Year
<u>1994</u>	<u>1995</u>
\$ 112,389	\$ 83,589

3. GENERAL FUND BALANCE

The General Fund is a statewide fund. Agencies do not have a separate General Fund since their only authority is to pay obligations from the statewide General Fund as long as they stay within their appropriation limits. Thus, on an agency schedule, the General Fund beginning and ending fund balance will always be zero.

4. SPECIAL REVENUE FUND BALANCE

Direct entries were made to fund balance to make adjustments for the change in inventory and to transfer funds to the State's General Fund.

RE: Legislative Council Audit Response

Dear Mr. Wosepka:

I have reviewed the draft audit report for the Montana Legislative Council submitted to me with your request for a response. I agree with your recommendations, which will be most helpful.

It takes the dedication and cooperation of a number of people to make a good audit report possible. Particular credit goes to Amy Clark and Kevin Hayes whose day-to-day attention to the details and dedication to accounting propriety were indispensable.

Over the course of the past year, we took a risk in combining three jobs into two in an attempt to streamline our operation. Unfortunately, we found our alternate arrangement did not work out, and we got behind on our inventory work. We are currently involved in a reorganization effort underwritten by the passage of SB 671 during the 1995 session. Building a strong and capable inventory capacity is among the important goals of the reorganization effort.

It has been a pleasure working with you.

Sincerely,

A handwritten signature in cursive script, appearing to read "Robert B. Person".
